What is Medidata Rave EDC?

- **Medidata Rave EDC** is a Clinical Data Management System (CDMS) for:
    - electronic data capture (EDC)
    - data management, and
    - Clinical data reporting.
- The application is developed by Medidata and requires a **Medidata account** to access.
- As a site user, Medidata allows you to:
    - access your studies
    - perform eLearning courses (**Note**: some are mandatory to follow before you can access the database), and
    - manage your account information.

How to create an account in iMedidata? (instruction video)

Where to find Medidata Rave?

Go to iMedidata | login and enter your Medidata username and password*

Welcome, please sign in
