

Jan BOGAERTS, ScD Scientific Director

Jan Bogaerts gained his degree in mathematics (1986) and his PhD in mathematics (1993) at the Free University of Brussels (Belgium). In 1988 he also gained a degree in management at the Free University in Brussels.

He joined BMS in 1993 as statistician. Later, as Associate Director Statistics he worked on several drugs in oncology, including several FDA and EMEA submissions.

In 2004 he joined the EORTC as statistician of the EORTC Breast Cancer Group. He is currently the Scientific Director. He contributed to the development of RECIST and is on the RECIST Steering Committee. Another key role of his is statistician of the MINDACT trial EORTC 10041 – BIG 3-04 which has reported primary results at AACR 2016.

He serves as permanent statistician on the EMA Scientific Advisory Group - Oncology. He is member of the ESMO-Magnitude of Clinical Benefit Scale committee.

He has a high interest in closing the gap between clinical trials and day-to-day practice, and in increasing scientific learning from merging multiple data sources.
