

Pascale Baltus

MBA

Pascale Baltus graduated with a Master in Electrical and Mechanical engineering (Aerospace engineering) from the University of Liège in 1994, complemented by an Executive Master in Business Administration from Vlerick Business School in 2017.

She started her career as a system engineer at Alstom, where she contributed to the development and delivery of complex train safety systems in Europe and abroad. Pascale Baltus gained additional experience with positions of Lead engineer, Project Manager, Portfolio Manager, Quality Director, and Solution Director where she has developed a strong expertise in international project management, quality management, business processes, change management, and strategic marketing.

Pascale Baltus joined EORTC in 2018 as Project Director. Her first goal was to develop EORTC portfolio and project management in the newly implemented matrix structure, by building a team of Project Managers, and developing processes and tools for efficient project management and continuous improvement.

Pascale Baltus is currently responsible for the operational and financial end-to-end performance of the EORTC projects portfolio, leads the team of Project Managers.
