What is Imagys?

- Imagys is a centralized web-based platform by [Keosys](#) [medical imaging](#)
- Imagys has been customized for EORTC studies and is used:
 - to upload medical images from computerized tomography (CT), bone scans and magnetic resonance imaging (MRI),
 - To perform (centralized) quality review as defined per protocol.

How to login?

Enter your
Imagys
username and
password

The image shows a login page for EORTC. At the top center is the EORTC logo, consisting of a blue cube icon followed by the text "EORTC" in a bold, blue, sans-serif font. Below the logo is the tagline "The future of cancer therapy" in a smaller, italicized, blue font. The main content area contains two input fields: the top one is labeled "Login" and the bottom one is labeled "Password". At the bottom left of the page is the KEOSYS logo, which includes a blue circle with a white "K" and the text "KEOSYS Medical Imaging". At the bottom right, there is a "Lost password?" link and a dark blue "Login" button.

If you forgot your
