What is Medical Imaging Clinical Trials?

- **Medical Imaging Clinical Trials** is a centralized web-based platform to store and access medical imaging data for potential quality control and potential central reading.
- The application is developed by [Medidata](#) and requires a **Medidata account** to access.
- The in-system training (eLearnings) will provide you with more information for what and how the system is used.

Where to login and find the platform?

Go to [iMedidata | login](#) and enter your Medidata username and password*

Opens the password reset screen
