# What is Medidata RTSM?

- **Medidata RTSM** is a dynamic **R**andomization and **T**rial **S**upply **M**anagement solution that is unified with Rave EDC.
- The application is developed by [Medidata](#) and requires a **Medidata account** to access.
- The in-system training (eLearnings) will provide you with more information for what and how the system is used.

# Where to find Medidata Rave?

Go to [iMedidata | login](#) and enter your Medidata username and password\*

Opens the password reset screen
