

## Catherine Fortpied

EORTC, Belgium

Lead Biostatistician, Statistics Department, EORTC Headquarters  
Brussels, Belgium

Catherine Fortpied obtained a Master Degree in Statistics in 1997. After 10 years of experience in pharmaceutical industry as clinical trial statistician in allergy-immunology and central nervous system therapeutic areas, she joined the EORTC (European Organisation for Research and Treatment of Cancer) in 2008 as senior statistician in charge of the design and analysis of clinical studies in Hodgkin Lymphoma and Head and Neck Cancer.

Since 2018 she is lead statistician and has also managerial responsibilities within the Statistics department of the EORTC.
