

Janette Rawlinson

British Thoracic Oncology
Group (BTOG)

Actively involved in cancer and health research since late 2013, Janette brings personal and professional experience to support health research, policy, and service design.

Appointed to the British Thoracic Oncology Group (BTOG) Steering Committee, UK's Clinical Expert Group (Lung cancer) 2017, NHSE's Lung Screening Advisory Group, and Specialist Cancer Surgery's Clinical Reference Group (2021-2022) CRUK's Stratified Medicine

Programme board (2015-2022) and NCRI Clinical Studies Group (lung) 2013 and UK cancer research advocates forum. She is a member of IQVIA's independent scientific ethics advisory committee, and Queen Mary CTU strategic advisory board and Oxford, UCL, Birmingham cancer PPI groups.

After 4 years on NCRI's lung group, she joined its Advanced Disease subgroup (2018) until NCRI closed in 2023. She served on NIHR Health Services Delivery Research board 2014-2018 and contributed to several ERS Task forces on lung cancer and lung screening position statements. A member of European Lung Foundation's Patient Advisory Group (lung Cancer) (2015) and 'United' Patient advisory group (2020), Public Health England's National Cancer Registration & Analysis Service Clinical Reference Group (lung) 2015 and Review of Informed Consent Cancer Registry (RICCR). She has taken part in NICE consultation for lung cancer and All Party Parliamentary precision medicine group at the Houses of Parliament.

A member of CRUK's Clinical Expert Review funding Panel, WM Cancer Alliance Lung EAG, Bham and Solihull ICS targeted lung health checks group and regular contributor/co-applicant to lung studies and publications. Her first involvement was fundraising and contributing to patient literature for Roy Castle lung cancer foundation in 2011.

She contributed to an industry sponsored TORCH workshop involving junior researchers in 2015, CRUK's Junior Investigators' Network 2022 and presented at Society of Cardiothoracic

Surgery conference, Takeda industry training, COG conference 2024, UKIO conference 2023 and NCRI research strategy events about patients' involvement within research.

A regular conference speaker including EORTC Survivorship Summit (Brussels 2018), ERS Presidential Summit (Athens 2018), ECCO Summit (Vienna 2018), ERS research summit 'lung cancer screening from trial to practice' (Barcelona 2018,) and Lisbon (June 2022), ERS Congress (Sept 2019), stratified medicine events, Grand Round talks on patient perspectives, CRUK presentation on involving patients in research for Digital Week (Oct 2021) she is a co- and sole author on several cancer related papers. She has been a PPI faculty member on the acclaimed MCCR course (EORTC/AACR/ESMO) in 2023 and 2024.

An experienced and qualified Director (IoD 2004) she served as an NHS non executive director 2006-2021 on a multi award-winning Midlands' Clinical Commissioning Group, and primary care trust. Governance experience includes Vice Chair of Primary Care Co-commissioning, audit, finance and performance, governing body, remuneration, OD, cancer steering group member and co-chair of Personalised Healthcare Budget committee and Chair of Community Healthcare services.

Following an international business management career, her role as an independent consultant involves working across sectors with a varied client portfolio on assignments including evaluations, training, coaching, board and people development, communications and mentoring.
