

Marie-Sophie Robert

Project director

Marie -Sophie holds a Master degree in Management from the ESCP business school, Paris.

She began her career as financial auditor at Ernst & Young, followed by a role as an internal auditor at Newell Rubbermaid. Marie-Sophie gained extensive experience in international project development and execution in the rail industry at Alstom, mainly as bid and project manager, and head of maintenance and services (Belgium and Luxembourg).

In 2018, she joined the EORTC as Project manager and developed the services department in charge of quality-of-life licensing and services for industry partners. In her current position as Project Director, she provides leadership and oversight to the team of project managers and supports the timely execution and financial performance of the EORTC's clinical trial portfolio.
